

ADM Scenario Cards — Section 7 Lesson 3

How to Use

- Run IMSAFE, spot the attitude trap, apply antidote.
- Score risk: Likelihood × Consequence → choose Mitigate or NO-GO.
- Record the decision and why in your post-flight notes.

Scenarios

- Client rush + winds rising above your limit in 2 hours.
- Dusk mission after a long workday; VO is fatigued.
- VO no-show; client on-site; controlled airspace authorization in hand.

Quick Matrix

Likelihood \ Consequence	Low	Med	High
Low	Green	Green	Amber
Med	Green	Amber	Red
High	Amber	Red	Red
